Dear Gov. Cooper,

Thank you so much for your service and for doing a job I would not be willing to do.

I urge you to not sign the permit for the Atlantic Coast Pipeline. I am sure you have heard all the environmental reasons for opposing further expansion of fossil fuels, so I will not take more of your time by repeating them.

I think too often we as Americans (I include myself in this mindset) choose short-term convenience and/or economy (even when ultimately detrimental) over long-term beneficial and sustainable outcomes. I wrestle with choices regularly and hope to make the wise decision even when it is difficult. I know likely you wrestle with these decisions as well, and I pray for discernment for all of us.

Sincerely,  
Lisa Bacon
